These figures are based on actual winning amounts for the National Lotto Draw on 28-8-2002. Cash prizes vary from draw to draw.

* Assuming an e-Lottery Syndicate was the only jackpot winner.

In this draw one of the Virtual World Direct e-Lottery Syndicates matched 4 main numbers plus the bonus ball and won **£139,340.00**. Each member received **£2,843.67**. Compare that to playing on your own and matching 4 main numbers and the bonus ball to win just a 4 ball prize worth **£56.00** (see 4 ball win on the grid above).

Because of the unique way the e-Lottery System works the syndicate had multiple winning lines. Two 5 ball plus the bonus ball prizes of **£68,494.00** GBP each and 42 4 ball prizes of **£56.00**, added up to a grand total of **£139,340.00**. Altogether, that's 44 wins in one draw.
